Hello,

Do you have any response to how this was mishandled given that it was a 6253(a) supplication and that direct browsing of the records should have been available, as I clarified in my email?

Hello,

I have read through the document provided. It does not address the PRA request at all, and the information I requested is not covered under the exemptions you listed.

Further, as you are aware through me sending you my ASCC report and through my comments about it at the Board of Trustees meeting tonight, many of your other denials of my PRA requests have been invalid. In particular, I know that information on category-based blocking and logging is available because I have a copy of such information from October 2021. If you have not yet read the report, please do so, and please reconsider your responses to the PRA requests I have sent based on the report.
