Re: California Public Records Act Request

Dear Ms. Parker,

This correspondence constitutes the Cerritos Community College District's ("District") response to your California Public Records Act ("CPRA") request received by the District via email on April 4, 2023. Specifically, you requested following records/statistics:

- "1. The number of California Public Records Act requests submitted to the Cerritos Community College District from April 1, 2022, to March 31, 2023.
2. The number or percentage of those requests which were properly fulfilled (meaning documents were disclosed - a claim that there are no documents is not fulfillment for the purposes of this request).
3. The number or percentage of requests in which all documents were delivered as requested, with no redactions of documents themselves or part or all of the content on said documents.
4. The number or percentage of those requests which were subject to a time extension.
5. Of those with a time extension, the number or percentage which had an extension of exactly 14 days."

Under the CPRA, a "public record" is defined as, "any writing containing information related to the conduct of the people's business prepared, owned, used, or retained by any state or local agency regardless of physical form or characteristics." (Government Code § 6252(e)).

The District has determined that some items in your request identify public records in the possession of the District (Government Code section 6253, subsection (c)).

Enclosed herewith is the number of California Public Records Act requests submitted to the Cerritos Community College District from April 1, 2022, to March 31, 2023. The database maintained by the District only has limited information that includes tracking number, requester, date received, date response, and whether or not the request was responded to within 10 business days.
