### Special note on Apple devices and certain browsers:

By default Apple devices and some web browsers (such as Google Chrome) have the pop-up blocker enabled. Files attached to your request will open in a new window and will only do so if pop-ups are allowed in the device settings. Please allow pop-up's for this page to download your files. Apple devices do not provide a "pop-up blocked" message while this setting is enabled. Large files may take time to download. Please wait for files to download before attempting to download again.

You can access your files from Apple devices by disabling the pop-up blocker setting by visiting Settings > Safari > turn off "Block Pop-ups" on your device. Once disabled, you can view attached files.

You can access your files from Google Chrome by adjusting the pop-up blocker setting by visiting Settings >Advanced > Content Settings > Pop-ups > and allowing this site via the Add button.
