Ms. Parker,

Please find below the project website. There are documents available in the project's website that might be responsive to your request. Funding for this project is scheduled for 2046-2052. The project's extension has not been initiated by the Metro's Board yet.

**Request Closed** Public

This request is being closed out due to the fact that no response was received when attempting to clarify the

information that is being requested.

While we are more than happy to oblige your request, we are unable to do so at this time. Government Code 6253(b) asks that a request "reasonably [describe] an identifiable record or records." If you would like, please clarify, by way of a contract number(s) so that we can initiate a search to determine whether or not LACMTA has any of the records you seek.

Please submit a new public records request with more specific details and information as to what records you are looking for and provide a solicitation and/or contract number.

You may reply to this email if you have any questions related to this public records request.

Posted by Becky Quinteros, Administrative Analyst, on behalf of Los Angeles County Metropolitan Transportation Authority (Metro).

I don't have the RFP or contract numbers; these are not required for the request under the CPRA, and finding them would be required of LACMTA under the Duty to Assist.
