Ms. Parker,

Please see the attached in response to your request. I appreciate your patience as these records were gathered and reviewed. Please note that one redaction was made to protect the confidentiality of student records (see 20 U.S.C. 1232g; Fla. Stat. s. 1002.225).

Thanks,

Mike

External Email Use Caution and Confirm Sender

Ms. Parker,

Piecing together the updated request, I want to confirm that I have the correct parameters. This would be a search of the emails for all of the listed individuals from Sept. 1 - Sept. 30 containing the following:

DEI

LGB (which would capture all other variations listed in your request)

Indoctrination

If I have that right, the search returned 157 items, which would require approximately 5 hours for compilation and review. This would not be considered extensive use of technology or personnel time, so you will not be charged for the production. However, I ask for your patience as the records are gathered. You should receive a complete response by the end of the week or early next week.

Thanks, and let me know if I've misunderstood any portion of the request.

Mike

Reviewing the terms, removing "diversity" as a search term should be fine, as the specific topics being looked for would be covered under the others.

Removing those 2 search terms didn't make a significant difference. It appears that "diversity" is the term that is driving most of the returns.

If you don't mind, I would like to take some time to do a quick preliminary review to figure out where the numbers are coming from. It's possible that some duplicate items are coming through, or that advertisements and unsolicited emails are inflating the numbers. If you agree, I can weed through and let you know how many items are truly transacting official College business and which are cold call or spam emails.

Ms. Parker,

An updated search returned 308 items, which would require approximately 10 hours for processing and review.

Ms. Parker,

Please feel free to narrow or adjust the scope of your request as you see fit. The previous estimate was based on the number of email accounts to be searched, your list of specific search terms, and the date range provided in your request.

Sincerely,

Mike Pierce

Ms. Parker,

An initial search of College records has returned 665 items. Each record must be reviewed for information that is confidential or otherwise exempt from public disclosure under Florida law. The College typically estimates 2 minutes per email for review. In this case, such review would require approximately 22 hours.

Florida law permits the College to assess a service fee when its response would require extensive use of technology and personnel labor. If you wish to continue with your request, I can send a more formal time and cost estimate for your approval.

Please let me know how you wish to proceed.

Sincerely,

Mike Pierce

Under the Florida Sunshine Law (Chapter 119 and other relevant statutes of the State of Florida), I hereby request **all emails from members of the Board of Trustees, as well as the President of New College, using**

These emails are requested in electronic format.

This request is intended on behalf of the public to provide the residents of the State of Florida, and the students of New College, with greater access to information and communications between their public officials; to that extent, we request a waiver of any search fees, especially given the trivial nature of the request. This request includes every person who has custody of the requested documents as stated in Florida st. sec. 119.07(1)(a). If portions of the requested records are closed or exempt, please segregate the closed/exempt portions and provide the rest.

If you have any other questions about the terms of my request, please feel free to contact me.

Thank you for the assistance.
